**Quick Facts**

- **Breast augmentation** has been the most popular cosmetic surgical procedure for 3 years in a row. Until 2008 liposuction had been the most popular cosmetic surgery procedure.
- In 2006 the FDA announced their decision to reintroduce silicone gel breast implants to the market.
- Since 2000 **Botox** has been the most popular cosmetic nonsurgical procedure. Botox gained FDA approval for cosmetic use in 2002.
- **Hyaluronic Acid injectables** (including Hylaform, Juvederm, Perlane/Restylane) have quickly been gaining in popularity. ASAPS only added Hyaluronic Acid to the survey in 2004, and in 2010 these procedures are only 2nd in popularity to Botox.
- Botulinum Toxin Type A increased by approximately 50% during the nine-year period 2002 to 2010.
