

aesthetic one

You Stay Connected. Your Patients Stay Informed.

# Welcome to Aesthetic One!

**Aesthetic One is the first and only breast implant registration platform built to inform and empower your patients - available through an easy-to-use app and online portal.**

Designed to save your office time with HIPAA-compliant patient communication, breast implant scanning, and digital record sharing. Keep reading for a quick walkthrough of what you need to know.

---

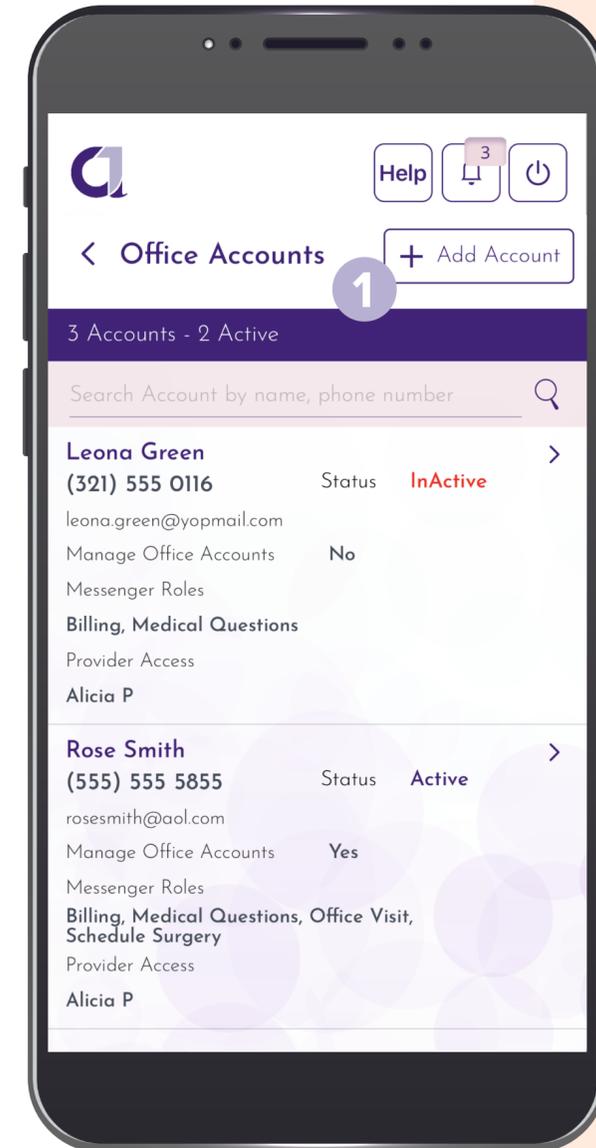

Access the Aesthetic One web portal at **[surgeon.aestheticone.com](https://surgeon.aestheticone.com)** where you can upload forms and patient resources.

# How does my staff join Aesthetic One?

## GET YOUR STAFF INVOLVED

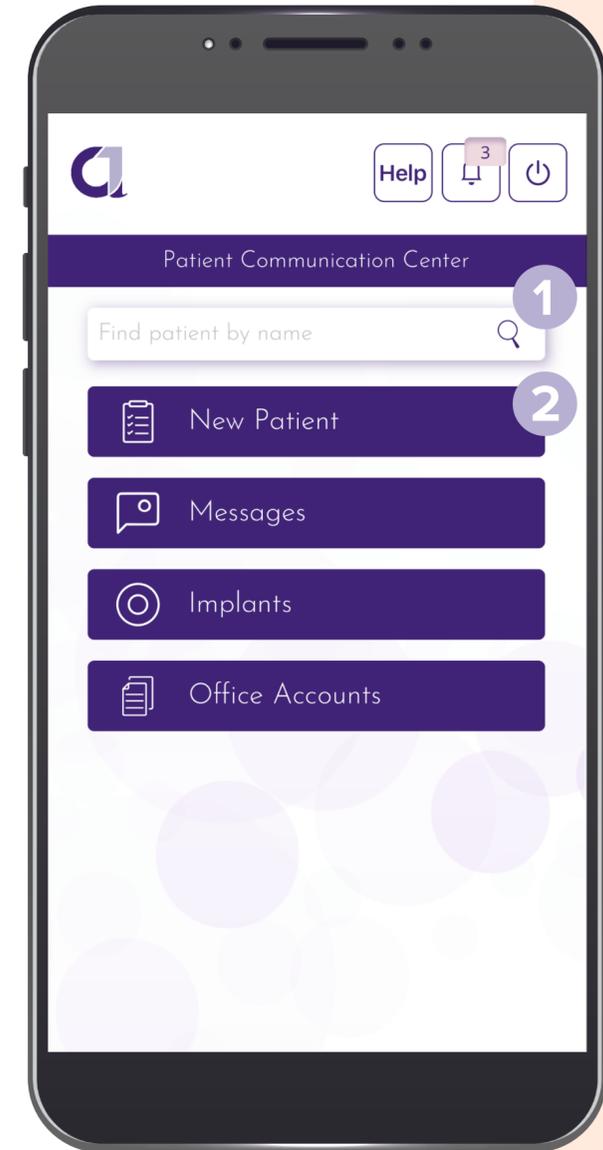

- 1 Tap **Office Accounts** and select + **Add Account**
- 2 Input staff details and select the messenger role(s) you would like: Billing, Medical Questions, Office Visits, Surgery Scheduling – you can select one or all.
- 3 The staff member will then receive a text message inviting them to download the Aesthetic One app.
- 4 You have the flexibility to make a staff account inactive or change roles at any time.

# How do I connect with my patients?

## STAYING CONNECTED HAS NEVER BEEN SO EASY

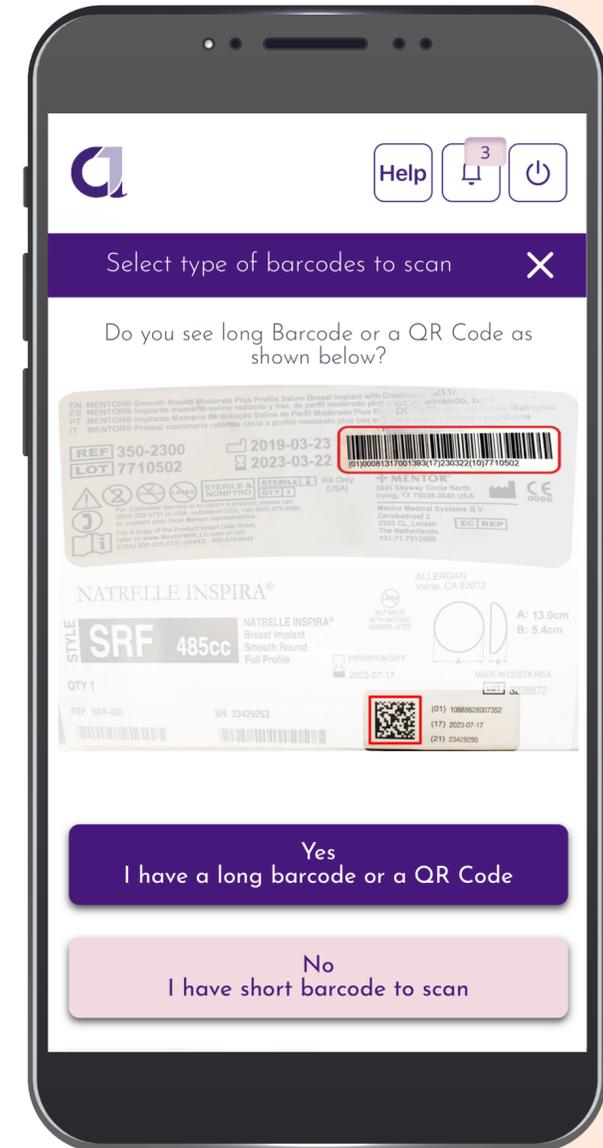

- 1 Invite patients to download the app by searching for your patient by their first or last name within your Aesthetic One and follow the prompts.
- 2 If you cannot locate the patient, simply select **New Patient**, and input their information. Once complete, they will receive a text message and email inviting them to download the app and connect with your office. You can resend an invitation to a patient at any time by locating their profile within your Aesthetic One app and selecting **Resend Invitation**.

# How do we register breast implants using Aesthetic One?

## SAY GOODBYE TO STICKERS & HANDWRITTEN FORMS

- 1 Locate a patient within Aesthetic One - this can be done using the search feature . Additionally, ANN users can find through their calendar.
- 2 Then select **Implants** from the top menu, tap **Scan Label**, and follow the prompts.
- 3 Once complete, the registration will be sent to the manufacturer and an operative summary will be available to both you and your patient.

# How do we message with our patients?

## STAY CONNECTED & HIPAA COMPLIANT

- 1 Access your messages by selecting the **Messages** icon on your home screen.
- 2 Then select the patient name to start/open a message thread.
- 3 You can then message, share photos, and web-links with the patient.
- 4 Messages are segmented by subject making delegating responsibilities easy and straightforward. There are four message categories: Billing, Medical Questions, Office Visits, and Surgery Scheduling.

# How do we access/upload forms?

## CAPTURE PATIENT DATA

- 1 From the online portal under **Patient Resources** select **Informed Consent**
- 2 You can drag and drop a PDF
- 3 Add the digital signature label
- 4 Add the “Group Name” – e.g. COVID-19
- 5 Add any tags you want – e.g. Informed Consent
- 6 Organize your content by creating group tabs and add any type of filter which will sort via search on the app.

# How do we upload patient resources?

## INFORMATION ON HAND WHENEVER & WHEREVER

- 1 From the online portal under **Patient Resources** choose the type of content you'd like to upload.
- 2 Follow the prompts and select **Save**. Stuck? Select the **Help** icon for more details

# How can we share information with patients?

## **GIVE YOUR PATIENTS PEACE OF MIND**

- 1 After you've uploaded your content simply find your patient in Aesthetic One and select an item from one of the following options from the menu: Forms, Documents, Photos, and Links.
- 2 All shared records are permanently accessible to patients and physicians through a secure HIPAA compliant document vault.

# How can we share photos with patients?

## EQUIP YOURSELF & PATIENTS WITH HIPAA COMPLIANT PHOTO SHARING

- 1 After locating your patient, and select **Photos** from the top menu.
- 2 Select **Add Photo** to upload a patient image and follow the prompts.
- 3 Before saving, select if you would like to share the photo with your patient.
