

We only publish according to the ACCME definition of a commercial interest:

Any entity producing, marketing, re-selling, or distributing health care goods or services consumed by or used on pts.

Please Note: This does not include textbooks, journals, practice management, non-profit organizations, or trademarked procedures. Hospitals and surgery centers of practicing clinicians are not regarded by ACCME as commercial.

Unless noted below, the faculty and planners have nothing to disclose. Spousal/partner relationships are included. If "No Position" is stated, a "one time" event hosted by the stated commercial entity was attended.
