

# Top 5 Procedures: Surgical & Nonsurgical

## ■ Top 5 Surgical Procedures in 2014

## ■ Top 5 Nonsurgical Procedures in 2014

## Quick Facts

- For the past two years, the order of the top five surgical procedures in terms of popularity has remained consistent.
- Chemical Peels were once again featured in the top five nonsurgical procedures category, edging out Photorejuvenation from the top five completely and surpassing Microdermabrasion in popularity.
- Botulinum Toxin has been the #1 nonsurgical procedure since 2000.
