

2018 - 2019 Traveling Professors & Topics

Louis P. Bucky, MD (2018 – 2020)

M. Bradley Calobrace, MD (2018-2020) No Longer Available/ Exceeded Visit Allotment

Jay Calvert, MD (2018 – 2020)

Mark Constantian, MD (2015-2019) No Longer Available/ Exceeded Visit Allotment

Daniel A. Del Vecchio, MD (2018-2020)

James M. Grotting, MD (2017 – 2019) No Longer Available/ Exceeded Visit Allotment

John E. Hoopman, CMLSO (2017 – 2019)

Joseph P. Hunstad, MD (2018 - 2020)

Jeffrey M. Kenkel, MD (2017 – 2019) No Longer Available/ Exceeded Visit Allotment

Kiya Movassaghi, MD, DMD (2018 – 2020)

James D. Namnoum, MD (2017 – 2019)

Richard Warren, MD (2017 – 2019) No Longer Available/ Exceeded Visit Allotment

Lou Bucky, MD – Philadelphia, PA

Topics Coming Soon!

~~M. Bradley Calobrace, MD – Louisville, KY –~~

Algorithm for Pocket Selection and Control and Use of Soft Tissue Support in Revisional Breast Surgery

Capsular Contracture: Prevention and Treatment

Current Concepts and Approaches in Simultaneous Augmentation Mastopexy.

Demystifying the Dual Plane in Breast Surgery

Managing Chest wall and Breast Asymmetries in Aesthetic Breast Surgery

Secondary Augmentation Mastopexies: Surgical Approach and Review of 200 Consecutive Patients

Preventing and Managing Primary Drivers of Breast Augmentation Complications

Primary Breast Augmentation: Preoperative Assessment and Surgical Approach

Incorporating Textured Round and Shaped Implants into your Practice.

Considering the Pros and Cons of Textured Round and Shaped Implants in Primary and Secondary

Aesthetic Breast Surgery

Three Unique Breast Implant Textures: The Pros and Cons!

Incisional Approaches in Primary Breast Augmentation

The Assessment and Management of Tuberos Breast Deformity

Periareolar (Circumareolar) Augmentation Mastopexy: Indications and Surgical Technique

Clinical Evaluation and Management of Animation Deformities in Breast Surgery

Etiology and Management of the Troublesome Double-Bubble Breast Deformities

The Business of Plastic Surgery: Are you in it to Win, or are you in it not to Lose?

Pearls for Creating a Comprehensive Plastic Surgery Practice

Jay Calvert, MD – Beverly Hills, CA

Topics Coming Soon!

Mark B. Constantian, MD - Nashua, NH

Rhinoplasty Patterns and Solutions: The Big Picture That No One Teaches You

Successful Grafting Techniques: When to Use Grafts and How to Make Them Work

How to Simplify Your Life and Improve Your Results with Endonasal Rhinoplasty

How to Make a Surgical Diagnosis and Set a Rhinoplasty Plan That Always Works
The Logic and Techniques of Secondary Rhinoplasty Simplified
Two Operative Plans That Solve Most Nasal Deformities
My Guide to Patient Selection: What You Can Learn From Your Unhappy Patients
How to Avoid Iatrogenic Obstructions and Maximize the Postoperative Airway

Daniel A. Del Vecchio, MD – Boston, MA

"Fat vs Fiction"-The Science of Fat Transplantation
Avoiding Complications in Large Volume Fat Transplantation
The Graph to Capacity Ratio – Soft Tissue Planning in Large Volume Fat Transplantation
Choices of Dehydration Devices in a Large Volume Fat Transplantation - An Economic Comparative Analysis
The Versatility of Fat Transplantation in Breast Surgery
Composite Breast Augmentation - The Combined use of Implants and Fat
Aesthetics, Anatomy and Application of Shape Change in Buttock Augmentation using Fat Transplantation
Understanding and Managing Medical and Aesthetic Complications in Buttock Augmentation Surgery
Expansion Vibration Lipofilling, a New Technique in Large Volume Fat Transplantation
Simultaneous Separation and Tumescence a New Technique in Large Volume Fat Transplantation

~~**James Grotting, MD – Birmingham, AL**~~

Going Bigger or Going Smaller—Problems Associated with Implant Size Change
How Safe Is Aesthetic Plastic Surgery? Lessons Learned from The CosmetAssure Data Base
How Vulnerable Are Plastic Surgeons to Cyber Attack? What to Do About It
A Personal Odyssey in Facial Rejuvenation—Evolution of The Delta Facelift
Addressing the Aging Neck—When to Treat Open and When To Treat Closed
Rediscovering Plication Vectors in Facelifiting
Adjunctive Treatments in Facial Rejuvenation: Lasers, Peels, Toxins, and Fillers
Decision-making in Aesthetic Breast Surgery—Critical Principles to Avoid Complications
Primary and Secondary Augmentation Mastopexy
Addition Subtraction Principles in Aesthetic Breast Surgery
The Vertical Sculpted Pillar Technique of Breast Reduction—Easy to Learn; Easy to Teach
A Reassessment of Browlifitng
Revisional Breast Augmentation—What Do I Do Now?
Personal Evolution of Breast Reconstruction: Where We Have Been and Where We Are Going

John Hoopman, CMLSO – Dallas, TX

The Foundations of Light Tissue Interactions and Controlling the Process, “The Five Laser Parameters”
Applying Lasers and Light Based Devices to Help Solve Clinical Challenges
Hands on Demonstrations of Common Light Based Procedures
Laser Safety in Clinical and Surgical Settings
(It’s common to combine the first and second topics for a more complete understanding of lasers and light)

Joseph P. Hunstad, MD – Huntersville, NC

Abdominoplasty with Circumferential Body Liposuction
Vertical thigh lifting with Concurrent Liposuction and Skin Avulsion
Autologous Buttocks Augmentation and Lifting – The Purse string Gluteoplasty
Abdominoplasty for Patients with Complicating Existing Scars
Fleur-De-Lis Abdominoplasty – Technical Refinements
Experience with Natural Scaffolds and Soft Tissue Support – the Good, the Bad, and the Ugly
Experience with Reverse Abdominoplasty
New Methods of Brachioplasty – Scar Placement Refinements with Concurrent Liposuction and Skin of Avulsion

Jeff Kenkel, MD – Dallas, TX

Choosing a Career in Plastic Surgery: What I have learned over 20 years in an academic practice
Hard Work Pays Off if You Persevere and Believe
Advances in Body Contouring: 2 Decades of Lessons Learned
Spectrum of Body Contouring: Advances in Excisional Contouring of the Trunk and Extremities in non MWL and MWL patients
Shaping the Ptotic Breast in non MWL and MWL Patients
Safety Consideration in Body Contouring Patients
Nonsurgical Options in Body Contouring: An Evidenced Based Review
Nonsurgical Rejuvenation of the Face and Body for the Plastic Surgeon
Physics and Safety for the Plastic Surgeon
Clinical Applications of Light, Laser, Ultrasound and Radiofrequency for Rejuvenation
Injectables 2017: An Evidenced Based Update
Safety, Anatomic Considerations and Technical Pearls to Optimize Rejuvenation using Injectables
Prevention and Management of Complications using Injectables

Kiya Movassaghi, MD, DMD – Eugene, OR

Shaping the Breast: A Comprehensive Approach to Primary Augmentation, Secondary Augmentation and Reconstructive Surgery
Integrating the Textured Implants into Your Practice
Biodimensional Planning in Breast Surgery
Revisional Breast Surgery, Correction of Malposition. An Algorithmic Approach using Capsular Flaps
Shaping the Upper Body: Reverse Abdominoplasty and Upper Back Lift
High Lateral Tension Abdominoplasty
Isolated Necklift in Facial Rejuvenation
Midface Rejuvenation: A Personal Evolution and Technique
Browlift: Endoscopic, Modified Endoscopic and Lateral Browlift
MD Wellness, The impact of Burnout

James D. Namnoum, MD – Atlanta, GA

Aesthetic Breast Reconstruction: The New Prepectoral Paradigm.
Augmentation/Mastopexy: Simplifying the process for consistent results
Minimally Invasive Vaginal Rejuvenation: Is this really plastic surgery?
Imaging and Aesthetic Breast Surgery: Building a Patient Centric Experience
Building A Successful Medical Spa: Critical Elements for Success
Defining the Beautifully Augmented Breast: Are we on the same page as the patient?
Secondary Breast Augmentation: A Systematic Approach for Common Problems
Shaped Versus Round: While I still like Shaped Implants for Breast Augmentation

BIA-ALCL: Is There Still a Role for Textured Implants
The Aesthetic Abdomen: Technical Refinements for Enhanced Results
When to Pull the Trigger on an ASC? Making sense of an expensive investment

~~Richard Warren, MD – Vancouver, BC, Canada~~

The Upper Eyelid / Brow Junction
Upper Eyelid Rejuvenation: More Than a Blepharoplasty
Browlift Surgery - When, Where and What Technique
Evaluating the Browlift Patient
My Algorithm for a Lower Eyelid Surgery
When and How to do a Lower Eyelid Fat Transposition
The MAPS Facelift (Mobile Anterior Platysma SMAS) - A High to Low SMAS Procedure
Changing Your Facelift Technique Based on Facial Shape
Neck Surgery Options - Why Some Turn Out Great and Some Don't
Neck Surgery Complications - Early and Late
Rhinoplasty Pre-Operative Assessment
Standard Open Rhinoplasty
Controlling Position of The Nasal Tip
Choosing the Correct Plane for Breast Augmentation
Revision Breast Implant Surgery
My Approach to Augmentation/Mastopexy - The Addition/Subtraction Approach
The Art of the Cosmetic Surgery Consult
Managing the Aesthetic Surgery Patient
ASAPS Practice Changers: Useful, Unpublished Technical Tricks and Tips
Balancing Your Life and Career in Plastic Surgery
Choosing a Career Path After Residency in Plastic Surgery
