Non Surgical Symposium
The Science, The Technology, The Technique

Registration Brochure
17-20 November 2011  Hilton Sydney
It is my great pleasure as President to welcome you all to ASAPS Inaugural Non Surgical Symposium being held at the Hilton Sydney from 17 – 20 November 2011.

The symposium is open to all plastic surgeons, cosmetic doctors, dermatologists, nurses involved in non surgical procedures and dermal therapists.

The symposium Committee has planned a comprehensive schedule to educate us all about the most up-to-date developments and aspects on non surgical procedures.

The first day of the symposium is reserved for an interactive, in-depth small group learning and discussion with the masters including live demonstration of injection of toxin and fillers (the upper face, the upper eyelids, temple, lower eyelid, midface, nose, lower face and neck) followed by learning the functional anatomy with fresh cadaver dissection and demonstration. This Facial Injectable Masterclass: The Anatomy, The Aesthetic, The Technique is strictly limited to 60 doctors which is now full with a waitlist.

Friday 18 to Sunday 20 will be full of high quality presentations by international and local speakers.

As always, we are grateful to all the trade and industry sponsors who will be present in numbers to display the latest products and services relevant to plastic surgery.

I am certain there will be something for everyone in the social program.

I look forward to meeting you there.

Craig Layt
